

DETAILS

- + compact table device
- + double sealing (top/bottom)
- + ejector vacuum pump
(requires compressed air)
- + vacuum generation:
sensor and time control
- + re-gassing device
- + saving of up to 4 programs
- + incl. emergency stop
- + incl. acryl protection cover

VACUUM SEALER AZ SERIES

VACUUM SEALER AZ SERIES

Our AZ series vacuum sealers are particularly suitable for processing multilayer composite bags.

Depending on the bag, the vacuum-packed products are protected from moisture, dirt, external influences and direct discharge.

The AZ series devices are equipped with a suction nozzle and therefore do not require a chamber. Thus, you are not restricted in the length of the bags and the bags are vacuumed in a short time using the Venturi valve.

TECHNICAL DATA

Technical details AZ450

Type / size	AZ450
Sealing bar length	450 mm
Sealing bar width	10 mm
Vacuum pump	ejector vacuum pump
Electrical connection	230 V / 50-60 Hz
Electrical power	3.2 kW
Compressed air	5 - 7 bar
Max. vacuum	ca. 80 Kpa
Vacuum generation	time controlled vacuum sensor controlled
Re-gassing device	time controlled
Vacuum display	LCD-display
Housing and shelf	stainless steel
Protective cover	acryl

Dimensions

Length x width x height	839 x 506 x 284 mm
Weight	ca. 37 kg

Other sizes

AZ600	sealing bar length 600 mm
AZ800	sealing bar length 800 mm
AZ1000	sealing bar length 1'000 mm
AZ1200	sealing bar length 1'200 mm
